

# Cloud Computing Service

Our business is enhancing **your** business

## EvoCloud & WebApp

**With the new EvoCloud cloud computing service and Afinox WebApp, you are free to work wherever you are and from any device.**

## EvoCloud & WebApp

### WHY CHOOSE A REMOTE CONNECTION SERVICE?

- Lower operating costs, thanks to real-time error detection
- Reduced downtime effects, through an accurate notification system (early intervention)
- Increased efficiency of the entire production cycle, through an interconnected data storage and management system

## EvoCloud & WebApp

**It allows real-time monitoring of all information from interconnected appliances such as: HACCP log, operating parameters and alarm messages.**

## REMOTE CONTROL

Check your equipment remotely, set combined cycles or change working parameters.  
Check the real-time status of the machine, monitor alarms and receive e-mail alerts,  
perform the **COMPONENT DIAGNOSIS** to **REDUCE DOWN TIMES** in case of failure.

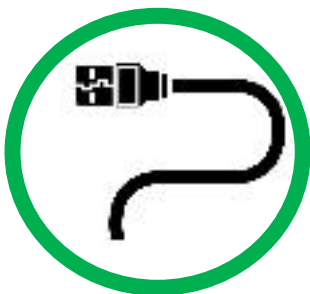

## CONNECTED: WHEREVER YOU ARE, WHENEVER YOU ARE

**Control your appliances remotely, set up combined cycles or change working parameters.**

Thanks to Afinox Evolution and WebApp you can connect with Infinity Evolution, 1Hundred or Mekano Pro at any time, even remotely, using a simple **ETHERNET CABLE CONNECTION**.

### WHY IS A CABLE CONNECTION BETTER THAN WI-FI?

**SAFER  
MORE STABLE  
FASTER**

## EVOCLOUD: THE NEW OPTIONAL AVAILABLE ON MACHINES EQUIPPED WITH SOFTWARE: 'Evolution'

- 1HUNDRED
- INFINITY PLUG IN /ROLL IN
- MEKANO PRO

DO YOU WANT TO ADD THE EVOCLOUD OPTION ON A PRODUCT ALREADY BOUGHT/SOLD?
